

# Concealment When You Need It.

147 Nightguard™ XL

Our full line of Nightguard™ holsters offers the option to keep your tactical lights on your weapon when holstering, so you never have to worry about being caught in the dark.

Each Nightguard™ model is designed for a specific carry mode, from a paddle style to a Sam Browne belt, so you are always covered no matter what you need. Our newest model, the 147 Nightguard™ XL, was developed with help from major police departments around the world and exceeds the standards for safety and concealability.

Don't leave home without a Nightguard™ by your side!
